Swanland u3a was founded in May 1996, following the enthusiasm of a small group of local residents. Its first public meeting attracted more than 80 people, and membership quickly grew. In 2026, Swanland u3a proudly celebrates **30 years of learning, friendship and community spirit**.

It is a friendly and welcoming organisation in East Yorkshire, bringing together retired and semi-retired people to enjoy learning, friendship and new experiences. Part of the nationwide u3a movement, it offers a wide range of interest groups, activities, outings and monthly meetings.
Built on the principle of learning from one another, Swanland u3a encourages members to share their knowledge, develop new interests and enjoy an active and fulfilling retirement.
