

Malcolm Brooke Biography

For many years Malcolm worked for the MoD schools (teacher, headteacher, advisory) and was fortunate to live and work in several interesting parts of the world. Most of his talks are inspired by his time in Cyprus and Germany. In 1974, as a young teacher in Cyprus, he experienced the military coup and subsequent Turkish invasion and, when living in Germany, saw the events of November 1989 as the Berlin Wall came down.
