

# Malcolm Lawrenson

My biography:

Malcolm and Swanland U3A go back a long way together. Malcolm was one of the members of the Steering Committee that set up Swanland U3A, and was elected as its second Chairman in May 1999.

Lasting features from his time as Chairman include our registration at the Charities Commission, the Swan Logo, the Humberside Accord, and Event Days. On leaving university with a Chemistry degree he joined BP as a research scientist at the start of a career spent in research, management, and corporate and strategic planning in the UK, New Zealand and Switzerland. In January 1989 he was elected a Fellow of the Royal Society of Chemistry.

Malcolm gave his first talk on Egypt to the u3a in 2006 having spoken previously about the Incas and the Mayans. He has kept up to date with the latest discoveries since then and is looking forward to the opening of the Grand Egyptian Museum in Cairo in the near future.
