An Ideal Wine For A Summers Day...

Many associate sunny summer days with either a chilled pink wine or perhaps even a sparkling wine. How about this for an alternative? A bone-dry Riesling from Alsace. Really thirst-quenching. And this particular Riesling from the Hugel family is quite delicious.

Generations of the family have been producing wine in the Alsace region of France since the 1630s and they have established a brilliant reputation.

Enjoy it.

John Peck, Convenor Wine Appreciation
