

## My Green Watering Can by Annie Poulse

Have you seen my Fuchsias, my roses, my peonies?  
Have you seen my begonias, my petunias, my pansies?  
Have you seen my Dahlias, my daisies and my poppies?  
Have you seen them, smiling at my green Watering can?

Seen those watering cans, big, small, round and tall  
Seen watering spouts fat, thin, short and long  
Seen them made of plastic, metal, ceramic and steel  
No matter what, my plants love them all

Watching the can filling with water bright  
Watching it gently spraying my flowers light  
Soft rain like spray tickling the plant's delight  
Flowers starts to sway with glee on sight

Plants and Shrubs bearing flowers oodles  
The grass and the leaves go greener for its cuddles  
The birds and the bees frolicking in puddles  
My green watering can gather them all in huddles

Seeing the garden happy and blooming  
Seeing my smile and satisfaction booming,  
Seeing the sun over the horizon looming  
My green watering can is always ready and glowing!
